GET READY TO GARDEN IN MARCH

Wednesday, March 29 at 6:30pm
Wake Up Your Spring Garden!

Planting Chores for March:

- Plant cold weather vegetables like spinach, peas, lettuce, radish, and broccoli as soon as soil is workable.
- Divide and transplant summer-blooming perennials
- Sow seeds that need 10-12 weeks indoors before transplanting.
- Late March is the time to plant pansies, new trees, and shrubs.

Check out ccenassau.org/gardening for more information on gardening by month and a list of recommended trees and shrubs for our area.

Visit our website to sign up for our monthly Seed Library newsletter and news about upcoming programs.
